CHURCHES OF CHRIST, SCIENTIST

"Doctrine of Atonement" is the subject of the Lesson-Sermon on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. Among the Bible selections are these verses from the epistle to the Hebrews: "Wherefore seeing we also are compassed about with so great a cloud of witnesses, let us lay aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us, looking unto Jesus the author and finisher of our faith; who for the joy that was set before him endured the cross, despising the shame, and is set down at the right hand of the throne of God. . . . Now no chastening for the present seemeth to be joyous, but grievous; nevertheless afterward it yieldeth the peaceable fruit of righteousness unto them which are exercised thereby."

One of the passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, says: "Wisdom and Love may require many sacrifices of self to save us from sin. One sacrifice, however great, is insufficient to pay the debt of sin. The atonement requires constant self-immolation on the sinner's part."

Easter Meditation

The message of Easter this year and every year is, "He rose again." It is a message of eternal triumph of life over death, a triumph which is being continually re-enforced in the life of the Christian. Personally, I believe in the resurrection of the body. I believe in the resurrection of the soul. Paul knew the power of the resurrection in his life before his body died.

County Drys In Fight To Block Repeal of Law

Will Concentrate on Opposing Amendment 18th

Los Angeles county dry forces, supported by prohibition leaders in Torrance and other cities throughout the county, will concentrate their efforts on the fight to block repeal of the Eighteenth Amendment. This was the announcement made today following a meeting of the Anti-Saloon League Friday afternoon in Los Angeles, in which dry leaders from all over the county participated.

With the state liquor control act voted by the people last November, all control would be vested in the state immediately upon repeal of the Eighteenth Amendment, and only the state legislature could set up local control, it is now argued. Therefore, according to Dr. A. H. Briggs of the league, the prohibition workers cannot afford to spend their time opposing the repeal of local regulations, but will spend their efforts to keep the "real thing" on the books.

Repeal of the Eighteenth Amendment would in the case of California, with its new state liquor regulation on the books waiting to become effective, be to welcome back liquor traffic under the state flag," Dr. Briggs stated. Dr. Briggs also stated that the fight will be carried right to Congress, and that the dries will have their own candidates in this and every other congressional district in Los Angeles county at the next election.
